Strategic software leader with 10+ years of experience driving global engineering teams at the intersection of AI, neural rendering, gaming and data ecosystems. Proven track record of executing and shaping multi-million dollar software and hardware programs. Expert at navigating complex stakeholder environments to achieve platform adoption

EXPERIENCE

AMD

Technical Program Manager

Remote - Salt Lake City, Utah

March 2022 - Present

- Led global technical programs across DevRel, DevTech, strategic accounts, and neural rendering research and productization, delivering software and hardware focused programs with multi-million dollar budgets across the entire product life cycle.
- Executed special projects with strategic partners such as Sony Interactive Entertainment and Epic Games, partnering with senior leadership to define and influence multi-year software and hardware strategy for next generation game consoles, CPUs, and GPUs.
- Drove alignment across product management and software engineering by assessing technical feasibility, negotiating scope, and refining ambiguous requirements for highest value AI features for multiple future platforms.
- Owned global data architecture, pipeline, and reporting for gaming and AI applications, utilizing both AI and traditional data tools for insights for hundreds of stakeholders, including communicating strategy impact, priorities, and progress to senior leadership.
- Managed GPUOpen content and led projects for the global Developer Programs team, translating feedback from partners and users into resources.

Pluralsight

Director, Content

Draper, Utah & Remote

January 2017 - March 2022

- Led global content ops team of ~20, including project managers, account managers, and editors, integrating product strategy, data, and curriculum systems into team execution.
- Owned a portfolio of thousands of assets across a broad spectrum of technical domains, including software development, IT infrastructure, data engineering, design, & leadership.
- Directed pipeline and alignment between curriculum strategy, engineering, product management, and production. Responsible for \$10 million+ annual content ROI.
- Reduced production overhead by over 35% across thousands of content deliverables.
- Defined strategy and KPIs, managed hiring, and implemented cost savings of over \$5 million through restructured contracting while simultaneously raising Author satisfaction (NPS) by 20+ points over 2 years.
- Architected account management strategy for 1,500+ accounts and integrated deeply with product management teams, defining in-house tooling and content systems.

Allen Communication
Design Producer, Lead

Salt Lake City, Utah
January 2016 - January 2017

- Led production of bespoke training for Fortune 500 Enterprise accounts, including HP, HPE, Harley-Davidson, McKinsey, OC Tanner, Deloitte, and Toray America.
- Designed award-winning apps, games, websites and experiences, scoping work for teams of software engineers, artists, and other designers.

University of Utah
Lead Producer, Research Assistant

Salt Lake City, Utah
January 2014 - January 2016

- Led a team of 12+ engineers, designers, and artists in producing an indie video game, '404Sight'. Generated 350,000+ downloads, Millions of YouTube views, and 85%+ review positive review score with nearly 2,000 reviews. Winner of Epic Games 'MegaGrant'.
- As a grant-funded research assistant, managed production of various interactive digital experiences and research team funded by a \$1.3 million grant over 1.5 years.

Miscellaneous Companies
Unity Engineering QA, DBA, Engineering QA, IT Manager

Salt Lake City, Utah
January 2008 - February 2014

- Myrooms.com, Industrial Supply, Electronic Arts (EA), HEB Business Solutions.
- Managed QA pipelines, database management, and IT architecture across various roles and industries, owning technical deliverables and projects in each role.

EDUCATION

University of Utah
Master's, Entertainment Arts, and Engineering
Bachelor's, International Studies

Salt Lake City, Utah

SKILLS & INTERESTS

Strategic

Strategic Ecosystem Partnerships, Cross-Functional Alignment, Data Product Management, Product & Software Strategy, Technical Feasibility Assessment

Technical & Analytical

SQL, Salesforce Administration, Power BI, Git, AI-based software development, Python (basic), Hardware and Software Ecosystems, Network Engineering,

Methodologies & Misc

Technical Program Management, Change Management, Spanish - professional proficiency

Interests: Travel, Cycling, Running, Indoor Rowing, Tabletop Games, Spending time with my wife and kids
